

# Colour Mixing

## The Primary Colours

These colours can't be made. What primary colours do you know?

## The Rainbow Colours

Let's mix the primary colours together to make the other colours of the rainbow.

Red	+	yellow	=	Orange
yellow	+	Blue	=	Green
Blue	+	Red	=	Violet
Red	+	Lots of Blue	=	Indigo

Name: \_\_\_\_\_

# The Rainbow Wheel

The primary colours are colours that can't be made. When we mix them together we can make all the other colours. Why don't you give it a try?

Mix the primary colours together to make the colours of the rainbow.
